

DHANUSH KUMAR K

Aspiring Data Scientist | Python | SQL | Power BI | Excel

☎ 6381624283 | ✉ dhanushkumar.offcl@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Aspiring Data Scientist with a Bachelor of Engineering in Computer Science and hands-on experience in Python, SQL, Power BI, Microsoft Excel, Exploratory Data Analysis (EDA), data cleaning, data visualization, and dashboard development. Experienced in analyzing real-world datasets, performing data preparation and modeling, developing interactive dashboards, and extracting actionable insights to support data-driven decision-making. Strong foundation in analytical thinking, problem solving, and business intelligence with a keen interest in applying data science techniques to real-world business problems.

TECHNICAL SKILLS

Programming: Python

Database: SQL

BI & Visualization: Power BI, Microsoft Excel, Data Visualization, Dashboard Development

Data Analysis: EDA, Data Cleaning, Data Preprocessing, Data Modeling, Data Validation

Power BI: DAX, Data Modeling, Decomposition Tree, KPI Analysis, Interactive Dashboards

Excel: Pivot Tables, XLOOKUP, Data Cleaning, Data Analysis, Data Visualization

PROJECTS

Mercedes Sales Dashboard

Tools: Microsoft Excel, Data Analysis, Pivot Tables, XLOOKUP, Data Visualization

- Developed an interactive Mercedes Sales Dashboard using sales data covering 2025–2026 to analyse sales performance and business trends.
- Performed data cleaning and preprocessing to improve data quality and prepare datasets for analysis.
- Used Excel Pivot Tables and XLOOKUP to organize, retrieve, and analyse sales information efficiently.
- Created data visualizations to identify sales trends, product performance, and key business insights.
- Transformed raw sales data into a structured dashboard to support data-driven decision-making and performance monitoring.
- Worked with updated sales data to provide a clear view of business performance across the reporting period.

Emirates Executive Performance Dashboard

Tools: Power BI, DAX, Data Modelling, EDA, Data Visualization

- Developed an executive-level Power BI performance dashboard using business data covering 2024–2026.
- Performed Exploratory Data Analysis (EDA) to identify trends, patterns, and relationships across multiple business datasets.
- Designed a structured data model integrating information from Airports, Bookings, Calendar, Customers, Expenses, Flights, Payment Methods, and Ticket Categories.
- Created DAX measures and calculated metrics to analyse business performance and support executive-level reporting.
- Designed interactive visualizations to monitor KPIs, operational performance, booking trends, expenses, and customer-related metrics.
- Implemented a Decomposition Tree to analyse contributing factors behind key performance metrics and identify areas requiring further investigation.
- Built an interactive dashboard that enables users to explore business performance through filters, KPIs, charts, and detailed analysis

CORE STRENGTHS

Analytical Thinking | Problem Solving | Data Interpretation | Business Intelligence | Data-Driven Decision Making

EDUCATION

Bachelor of Engineering — Computer Science and Engineering

SBM College of Engineering and Technology | 2026
